

PUREWAVE PIPE CLEANER

A cleantech solution for industrial pipe cleaning

A next-generation upgrade — gentle on pipes, bioreactors and easy to use.
Upgrade your existing cleaning routine without risk.

Operational performance – built for demanding systems

- **Removes uric scale and buildup**
the root cause of clogged pipes.
- **Keeps pipes flowing**
preventing blockages and costly downtime.
- **Reduces manual interventions,**
maintenance, and operational disruptions.
- **Proven performance**
in real maritime environments.

Cleantech impact – without compromise

- **Industrial-grade performance**
with a documented environmental profile.
- **Non-corrosive**
gentle on pipes, systems, and bioreactors.
- **Reduces use of aggressive chemicals**
and overall system wear
- **Enables simpler operations**
with measurable cost and sustainability benefits.

- Within the 10-day period, the product successfully removed medium-level deposits, achieving a 98% clean result.
